

**WORLD AVIATION
GROUP**

Mission

World Aviation Group Founded in 2011 , the company aims to offer its clients **comprehensive services in the aeronautical field** , including training, technical flight operations, maintenance, innovation, and consulting.

WAG is committed to the success of its clients, offering complete **end-to-end (E2E)** and **turnkey** solutions, thanks to the experience and dedication of **a team of professionals with more than 30 years in the aviation sector** .

Our focus on knowledge, experience and vocation has been essential to our growth, allowing the company to anticipate and constantly adapt to the needs of our customers. **The vision and commitment of our CEO and our team represent WAG's key differentiating factor in both the national and international markets.**

Corporate Social Responsibility

WAG, a service provider with 100% Spanish capital , reaffirms its commitment to advancing responsible aviation. We adopt a proactive approach to facilitate the transition towards a sustainable model, attentively respond to the needs of our customers, rigorously honor our contractual commitments, and continually strive for **excellence and ongoing improvement**.

Values

Safety, quality, professionalism and honesty are the pillars of our daily work at **WAG** . Our mission is clear: to provide students, clients and users with a service that meets the **highest standards of safety, excellence and efficiency** .

We add value for our clients—and our word is as binding as a contract.

Sales (K€)

16,537
(estimated)

10,009

2025

EXPANSION (C. VIENTOS) WINDS)

Expansion of offices at Madrid-Cuatro Vientos Airport.

EXPANSION (MÁLAGA)
Reorganization and expansion of the Málaga flight school's operational base.

REINFORCEMENT PERSONNEL
Reinforcement of the ground operations team..

MAINTENANCE
Expansion of World Aviation Maintenance with the acquisition of a 1,090 m² hangar, a 975 m² auxiliary area, and a 190 m² office area. Extension of the EC130 B4 approval. Workshop extension to 365/12 h.

ATO
Training programs for obtaining ATPL(H)/IR licenses in the Armed Forces.

New type ratings for Bell-429 and Bell-505 helicopters, with simulator and aircraft training in a new training center with state-of-the-art equipment.

AOC

Incorporation of the Bell 505 into our operational fleet, expanding our capabilities and versatility for commercial and specialized missions.

LA CARTUJA (SEVILLE)
Agreement with the Regional Government of Andalusia for the management of the La Cartuja Heliport (Seville).

CIVIL GUARD
Award of a public contract for the maintenance of airworthiness certificates, as well as engineering, studies, and technical consultancy to obtain and maintain PERAM and CAMO+ approvals.

HELICOPTER ALLIANCE
Agreement with Helicopter Alliance, a company dedicated to supporting the life cycle of the UH-60 Black Hawk helicopter.

OESIA (Tecnobit)
Agreement with Oesia, a Spanish multinational company engaged in digital and industrial engineering and dual-use technologies. Within the Oesia Group, World Aviation participates in developing cutting-edge technology in avionics, simulation, and secure communications.

2024

PORTUGUESE AIR FORCE

Second award of the public contract for the training of military pilots.

AOC
Air Operator Certificate (ES.AOC.163).

COE
Special Operator Certificate (ES.COE.032).

SASEMAR
Operational start of the public contract for Maritime Rescue and Safety Services.

TRAGSA
Second award of the public contract for the transportation of personnel and equipment to Alborán Island.

CERTIFICATIONS
UNE-EN ISO 9001:2015
UNE-EN ISO 14001:2015

SIMULATORS
Acquisition of three FNPT II flight simulators (EN-1000x, H14, and A32) from Entrol.

WAG (BELL-429)
Selected by Bell for exhibition at the European Rotors in Amsterdam (Netherlands) and at the Oxford Airport Private Event (London).

2023

GUIMBAL HELICOPTERS

Construction of a new hangar at La Axarquía Aerodrome, Málaga.

BELL-429
World Aviation sells the first Bell 429 in Spain, intended for charter flights and VIP corporate transport.

LATVIAN AIR FORCE

Second public contract awarded for training of military pilots for the Latvian Air Force.

SASEMAR
Awarded public contract for maritime rescue services based in Las Palmas de Gran Canaria, Valencia, and Santiago de Compostela.

TRAGSA
Awarded public contract for the transportation of personnel and equipment to Alborán Island.

EXPANSION (MÁLAGA)
Expansion of a new hangar at La Axarquía aerodrome, Málaga.

EXPANSION (C. VIENTOS) WINDS)
Expansion of offices at Madrid-Cuatro Vientos Airport.

BELL FLIGHT EVENT
Organization of the Bell Flight event in the World Aviation hangars during the European Rotors.

2021

COVID-19

PORTUGUESE AIR FORCE
Contract terminated with exceptional compensation due to COVID restrictions.

EXPANSION (C. VIENTOS)
Expansion with a new hangar at Cuatro Vientos Airport.

AVENGER FLIGHT GROUP
Agreement with Avenger Flight Group (AFG) as operator of A320 and A330 simulators.

BAA TRAINING
Agreement with BAA Training as operator of A320 and A330 simulators..

2022

H11 SIMULATOR
Integration of the Entrol H11 simulator, strengthening initial courses (PPL, ATPL, MCC) and offering CPL training on the H135.

AERODEL
Agreement with Helifan for the supply of fuel to third parties at the Aerodel Heliport in Córdoba.

AEROCENTER ATO
Acquisition of Aerocenter ATO

2018

EXPANSION
Expansion of the ATO, World Aviation Flight Academy, with fixed-wing training

CERTIFICATION
New certification to offer qualifications for complex aircraft types within the ATO.

INDRA
Agreement with INDRA (FAMET Simulators)

2019

PORTUGUESE AIR FORCE
Awarded public contract for the training of military pilots for the Portuguese Air Force

BELL FLIGHT
Appointed representative for Spain and Portugal of Bell Flight.

2020

COVID-19

LATVIAN AIR FORCE
Awarded public contract for the training of military pilots for the Latvian Air Force

ENGINEERING
Development of new engineering capabilities in the production area.

2014

EXPANSION (MÁLAGA)
Creation of a new operational base with three hangars at La Axarquía Aerodrome, Málaga.

DRONE DIVISION
Establishment of the Drone Division within the ATO of World Aviation Flight Academy.

GIRONA
Opening of a base in Catalonia, at Platja D'Aro Heliport, Girona.

TAX AGENCY
Collaboration agreement with the Spanish Tax Agency for surveillance services in Spain.

2016

PART 145
Approval by AESA of World Aviation as a Maintenance Organization according to EASA Part 145

CAMO
Approval by AESA of World Aviation as a Continuing Airworthiness Management Organization according to EASA Part CAMO

2011

HELIFAN
Helifan Foundation, Marbella Heliport

ASCARI
Official partner of Ascari Race Resort, the only private Formula 1 circuit in the world

2012

AIR BP
Collaboration agreement with Air BP for fuel supply and equipment contract..

WORLD AVIATION
GROUP

Aeronautical Training

Flight Academy

The group offers **48 training programs** for helicopter, airplane, drone and simulator pilots, **ranging from PPL to ATPL licenses**, including **A320 and A330/350** ratings .

World Aviation Group has two Aeronautical Training Centers certified by **AESA** (**E-ATO 272** and **E-ATO-055**), which **guarantee the highest standards of quality, safety and international recognition.**

WAG promotes an inclusive environment of excellence, combining theory, practice and next-generation simulators.

Its commitment to innovation and continuous updating enables students to meet the current and future challenges of the sector.

Thanks to its **comprehensive approach**, graduates have access to a **wide range of job opportunities**, both in Spain and internationally.

The **keys to our training** are the following:

- **Mentoring and continuous education** to ensure the succesful completion of each stage.
- **We advance students' careers** by providing the knowledge and skills the industry requires for new qualifications, business programs, and retraining.
- **We add value and generate growth** through a comprehensive range of services in the aeronautical sector, including Training, Transportation, Specialized Engineering, Maintenance, Airworthiness, Operational Safety, and Consulting.

In it **year 2024** , more than were taught **1,000 hours of theoretical instruction** .
811 students were examined with a **success rate of 87.3%** and a **average grade of 87.70** .

Contracts with International Air Forces

Global government agencies trust our school to train their professionals, reflecting our **commitment to excellence** and **continuous improvement**.

Successful training of a group of helicopter pilots, with a contract renewed until 2029, consolidating ongoing collaboration and strengthening air capabilities.

Bella (Portugal)

We are currently training the second class of helicopter pilots, reinforcing our commitment to strengthening Latvia's air capabilities.

Ab Initio (Latvia)

Academic collaboration with the University of Salamanca

High-level academic collaboration for the design and development of specialized educational programs. This agreement allows our students to access officially recognized **university degrees**, strengthening both their **academic** and **professional** profiles.

Cadet" Program"

The top-performing students have the opportunity to **join the academy as instructors**, gaining flight hours and professional experience while training new generations of pilots.

An agreement with the company **Elit'Avia** (operator in joint venture with World Aviation for SASEMAR) allows the incorporation of previously selected students.

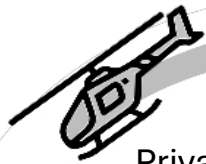

An itinerary designed to enable cadets to transition to make the **leap to leading airlines**, covering short, medium, and long-haul passenger transport routes, made possible through **agreements with operators**.

Aircraft Technical Operation

At **World Aviation Group**, we offer a comprehensive aviation experience, combining **operational versatility** with **personalized service**.

We maintain a **diversified fleet of helicopters and aircraft**, enabling us to organize flights for both **private transfers** and **specialized operations**, across a **wide range of services**, always with a focus on the **excellence**, attention to **detail** and **customization**.

Air Operator Certificate (ES-AOC.163)

Private transfers
Panoramic tours
Wine tourism
Hunting reserve excursions
Gastronomic tours
Sporting events
Weddings

Special Operator Certificate (ES-COE.032)

- ❖ Search and rescue
- ❖ Reconnaissance operations
- ❖ Medical transport
- ❖ Aerial photography
- ❖ Oil spill work
- ❖ Object launching
- ❖ Firefighting (in process of obtaining)

Collaboration with Tragsa

Our collaboration includes the **regular transportation of personnel and materials** required for the reconstruction of a dock and a shelter on Alboran Island (Almería), demonstrating our capability and flexibility in logistics operations.

Aircraft technical operation

Maritime Rescue and Safety

At **World Aviation Group**, we consolidate strategic alliances with entities that provide **essential services of public interest**, such as **Maritime Rescue and Safety (SASEMAR)**, thus reaffirming our firm commitment to the development of **critical operations with a high social impact**.

Since **August 2024**, our company manages the operation of **three CN235-300 model aircraft**, in close collaboration with a strategic partner (**UTE WAG- Elit'Avia**). This work is carried out maintaining a **permanent focus in operational excellence, institutional commitment and technical innovation**, ensuring strict compliance with all regulatory and operational requirements established in the Technical Specifications Document.

The awarding of this contract not only **reinforces our commitment to safety and quality** but also **demonstrates our ability to meet the highest standards in the industry**, delivering **effective, sustainable, and innovative solutions**.

- ❖ Mechanical and avionics repairs
- ❖ Commissioning of out-of-service aircraft
- ❖ Maintenance of piston-engine aircraft (LMA B1.2 and B1.4)
- ❖ Base and line maintenance

World Aviation Maintenance

Founded in 2016 and certified by the **Spanish Air Safety Agency (AESA)** as Part 145, the company employs **professionals with over 30 years of experience** in aircraft maintenance and overhaul. Our engineers and maintenance technicians work every day to ensure that **safety is our top priority**.

Our main base is located at **Madrid–Cuatro Vientos Airport** and includes **three hangars**, fully equipped to perform aircraft maintenance within our approved scope of work.

We provide **comprehensive maintenance** for our own fleet as well as for third parties, ensuring that every operation meets the highest **safety and quality standards**.

Our team of highly qualified mechanics and technicians is fully committed to **technical excellence and safety** in every job.

La Cartuja” Heliport Operation”

WAG offers:

- ❖ Operation under AOC
- ❖ VIP transport service
- ❖ 24/7 availability
- ❖ Ground support (GSE)
- ❖ Supplies
(fuel and oils)
- ❖ Maintenance service
- ❖ Training/Academy

Commercial Representations

Since **December of 2019**, **World Aviation Group** has maintained a strategic alliance with **Bell Helicopters**, acting as an **independent representative** for **Spain and Portugal**.

We provide a **comprehensive support** in the acquisition of Bell aircraft for **both public and private clients**, leveraging our expertise in all phases of the acquisition process.

We guarantee **first-class after-sales service**, **specialized maintenance** and **continuous updates**, ensuring **complete and efficient management** throughout the **entire life cycle of the aircraft**.

The aeronautical sector is undergoing a profound transformation towards **sustainability**, driven by the need to **reduce emissions** and adopt **cleaner, more efficient alternatives**.

In this context, **World Aviation Group** has established a **strategic alliance with Air BP**, one of the world's leading fuel suppliers, for the comprehensive management of the supply of **JETA1** and **AVGAS** in **Spain** and **Portugal**.

WORLD AVIATION
GROUP

Aeronautical Consultancy (technical and legal)

Specialized consultancy in airworthiness, civil (EASA/FAA) and military (PERAM/EMAR), for public and private organizations in Spain and internationally.

Expert advice on aeronautical regulations and legislation, in collaboration with specialized law firms in the sector.

Engineering projects for airport and aeronautical infrastructure, carried out in partnership with Airia.

Highlighted Projects

- ✓ Public contract for the **maintenance of airworthiness**, renewal of airworthiness certificates, and provision of engineering services, studies, and technical advice, enabling the **Civil Guard Air Service** to obtain and maintain **PERAM** and **CAMO+** approvals.
- ✓ **Strategic consulting and technical support from our office in Tripoli, Libya**, with the capability to coordinate large-scale regional projects.
- ✓ Consulting for **training programs in engineering and air operations**, in collaboration with **Libyan Air Ambulance**.
- ✓ **Health advice** for the creation of the **Integrated Security and Emergency Center of the Community of Madrid**, including the development of its procedures.
- ✓ Participation in the creation of the **Isolation Unit for highly contagious diseases at the Gómez Ulla Central Defense Hospital**.
 - ✓ Advisory support on the **Design, planning and cabin reconfiguration for air medical services**, developed in collaboration with specialized medical experts.

Comprehensive Support “ Legacy Fleet ”

EN 9120:2018

Supplies and logistics

- ✓ Spare parts, repair of components and avionics equipment
- ✓ Ground Support Equipment (GSE) and consumables

El Sistema de Gestión de Calidad Aeroespacial se aplica al siguiente alcance
The Aerospace Quality Management System has been applied to the following scope

Suministro de recambios, reparables, material consumible y herramientas específicas para aeronaves y sistemas aeronáuticos. Suministro de equipo de tierra para aeronaves.

Supply of spare parts, repairables, consumable material commodities and specific tools for aircraft and aeronautical systems. Supply of ground equipment for aircraft.

MRO

- ✓ Major inspections
- ✓ Application of SBs, OTs, ITs, AOTs, and AOLs (Service and Technical Instructions)
- ✓ Non-Destructive Testing (NDT)
- ✓ Engine removal and installation (including run-up)
- ✓ LMA certifications for all series:
 - *EASA Part 66 B1.1, B2, and C
 - *FAA A&P
- ✓ Part 65 Collaboration with CAMO and Part 145 organizations (EASA/FAA)
- ✓ Type training courses for B1.1 and B2 licenses

Technical assistance and consultancy

- ✓ “Working Parties”
- ✓ Engineering Services (technical consultations, troubleshooting)
- ✓ Collaboration with design offices (obsolescence, modifications, repairs)
- ✓ Creation and maintenance of stock (production logistics)
- ✓ Traceability of materials, tools, GSE, etc.
- ✓ Implementation and control of the production system

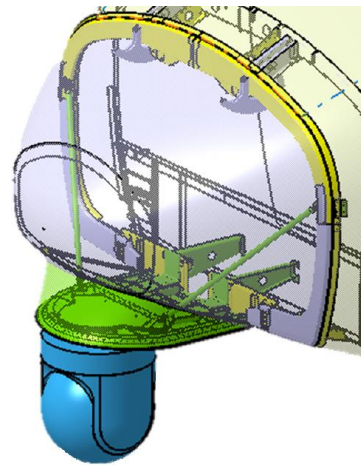

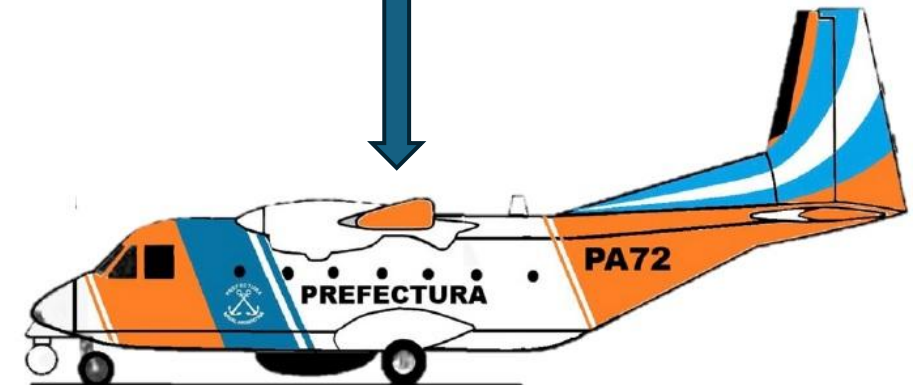

WORLD AVIATION
GROUP

Comprehensive Support “Legacy Fleet”

With **SVQ AvioCASA**, **World Aviation Group** can perform life extension programs, *retrofits*, *upgrades*, integration of new mission systems, reconfiguration of aircraft for the second-hand market, and the integration of optional equipment in the “*legacy fleet*” of airplanes and helicopters, all in compliance with civil and military airworthiness requirements.

The following images illustrate an example of an ongoing upgrade program for the fleet of the Argentine Naval Prefecture (PNA).

Comprehensive Support "Legacy Fleet"

During the last 5 years, we have supplied critical spare parts, such as to the South Korean Air Fleet, and carried out complex repairs that have allowed us to extend the useful life of aircraft, consolidating our position as a reference partner in the maintenance of strategic fleets.

Air Force Morocco
Air Force Senegal
Air Force Ivory Coast
Air Force Benin
Air Force France
Air Force Kazakhstan
Air Force South Korea
Air Force Philippines
Air Force Indonesia
Air Force Argentina
Air Force Dominican Republic
Air Force Venezuela
Air Force Ecuador
Air Force Argentina
Argentine Prefecture

Professionals with more than 35 years of experience providing technical and logistical support to *legacy fleets* worldwide.

DOA/AODM Engineering (S4A)

Engineering support

Advanced engineering solutions ensuring compliance, safety, and innovation for commercial and special-mission aircraft.

Consultancy

Specialized consultancy in avionics integration, cabin interior changes, and structural changes.

Project management

Comprehensive project management from concept to delivery, guaranteeing timely, efficient, and cost-effective execution of aviation engineering projects.

Modifications/STCs

Extensive portfolio of **EASA-approved STCs**, essential for aircraft upgrades and fleet modernization, including more than **3,000 minor modifications** developed to meet the operational requirements of aircraft operators.

Scope of approvals as DOA/AODM

- STCs, repairs, and modifications (major and minor)
- Avionics, cabin, electrical, structural, and environmental control systems
- Applicable to both **airplanes and helicopters** (CS-23, CS-25, CS-27, and CS-29)

**WORLD AVIATION
GROUP**

Development of innovation projects (R&D+i)

World Aviation Group promotes research, development, innovation and digitalization projects with direct application in the aeronautical sector. Our goal is to anticipate future challenges, providing technological solutions that are reliable, efficient, and sustainable over time.

Collaboration with the University of Salamanca

Strategic alliance with the **University of Salamanca** for the **development of new aeronautical technologies**, focusing on research in sustainability, digitalization, and operational efficiency.

AI streaming software

Creation of advanced AI-powered software tools for streaming, aimed at **optimize training, operational management and digitalization of aeronautical processes**.

Decarbonization project

An initiative in collaboration with Air BP to support the objectives of the **2030 Agenda** and **European decarbonization commitments**, accelerating the transition towards a cleaner and more sustainable aeronautical model.

Project of an integrated emergency coordination and training center for the Junta de Andalucía

Project featuring immersive simulation and virtual reality scenarios, facilitating more realistic and risk-free training while serving as an international benchmark. The image on the right contains a link to the proposal submitted to the **Andalusian Agency for Security and Comprehensive Emergency Management**.

Development of mission systems and their integration into drones

Research and development of systems in collaboration with **Primoco/Nexus**, including **specialized control software, integration of cutting-edge sensors, autonomous navigation systems, and mission-critical applications**.

Drone division

At **World Aviation Group**, we are **UAS (Unmanned Aircraft Systems) specialists**, offering comprehensive **aerial solutions** ranging from **training** to **professional operations**.

As an authorized operator, our Drone Division provides a wide range of **advanced aerial services** with the highest standards of safety and efficiency.

We focus on **training professional drone pilots**, with programs designed to help them **obtain EASA licenses** in multiple languages.

Our training model combines **100% personalized online instruction** with **hands-on classroom sessions** and the use of a **fleet of state-of-the-art drones**.

In addition, the division provides **support for professional UAS operations** of all types, ensuring **quality, safety, and full regulatory compliance** in every mission. Our professional teams are equipped with **state-of-the-art aerial imaging systems**, capable of recording in **6K resolution** using professional formats such as **CinemaDNG** and **ProRes RAW**.

We count on highly trained **aeronautical professionals specialized in drone operations**, including experienced **Red Epic operators**, **industrial engineers**, and **surveyors**, among others.

1,625 hours of video and 51,003 hours of flight
